MY STORY

In my 30 years in business, I have witnessed, and experienced, what it means to lead from the heart and a deeper desire for something greater than myself.

Those deep experiences led me to radical self responsibility, a passion for the feminine, gender diversity, and a commitment to doing business differently. In 2021 I left the US, secured a UK Innovator Visa, start business and life, again.

My strengths intersect at business and human. I drive forward one mission: Empowering the feminine in Women and Men.

I've been called courageous. I call it living in my strengths, thriving, leading from my feminine, making an impact, amplifying my voice, and inviting others to do the same.
